Days 1 & 2 – EMS Supervisor Boot Camp:

Congratulations! You've been promoted to supervisor...now what? Any experienced supervisor/leader will tell you that it takes years to learn the art of leadership and supervision. But first, you need the skills to survive! This acclaimed workshop has been presented to emergency services providers across the country and at many national conferences such as EMS Today and EMS World. This is a powerful-interactive workshop intended to ease the sometimes painful transition to leadership. Using "real world" experience and highly interactive case studies, this is 16 hours of training for "boots on the ground" supervisors that you can't afford to miss...

Days 3 – EMS Command School:

Have you ever taken an ICS course and felt that it somehow fell short of teaching you what you needed to know to manage an EMS incident? Well... this workshop is for you! Just as an ICS trained fire officer can still burn a building down because of poor tactics, pure ICS training for EMS still doesn't teach a provider HOW to manage a major incident. Before a fire officer can be effective in suppression they take many hours of training in fire strategy and tactics. The EMS command school is focused toward the strategy and tactics around commanding EMS incidents from the two car MVA to major long duration incidents. It is the first in an ongoing series of schools intended to bring focus to issues of strategy and tactics for "the big one". Using lectures, tabletop exercises, hands on drills and case studies you will learn the essential concepts and skills you need to be effective at EMS command functions.

****Please note that the Supervisor Boot Camp and EMS Command School are separate classes that can be taken independently of each other. You must register for both separately if you wish to attend all three days****

Anyone interested in attending should visit our website at stratfordems.org or contact Nancy at EMS Headquarters (203) 385-4060 to sign up for one of the sessions below.
