Description: A panel of Veterans, some of whom are also EMS professionals, will share their personal accounts of dealing with PTSD and will provide attendees with strategies to assist Veterans like them who are in crisis. Secondarily, they will discuss and demonstrate some lessons learned about Post Traumatic Stress on their roads back to civilian life. This interactive discussion is leadership by example and inspiration. We hope that by sharing our stories, we can reduce the Stigma of PTSD and lead others to seek help and not feel alone.
